It took him all day
to get his boat
ready to put up and never
had time to eat
much. When he got
home he was very
tired and went to bed
early. He had a good
night's sleep.

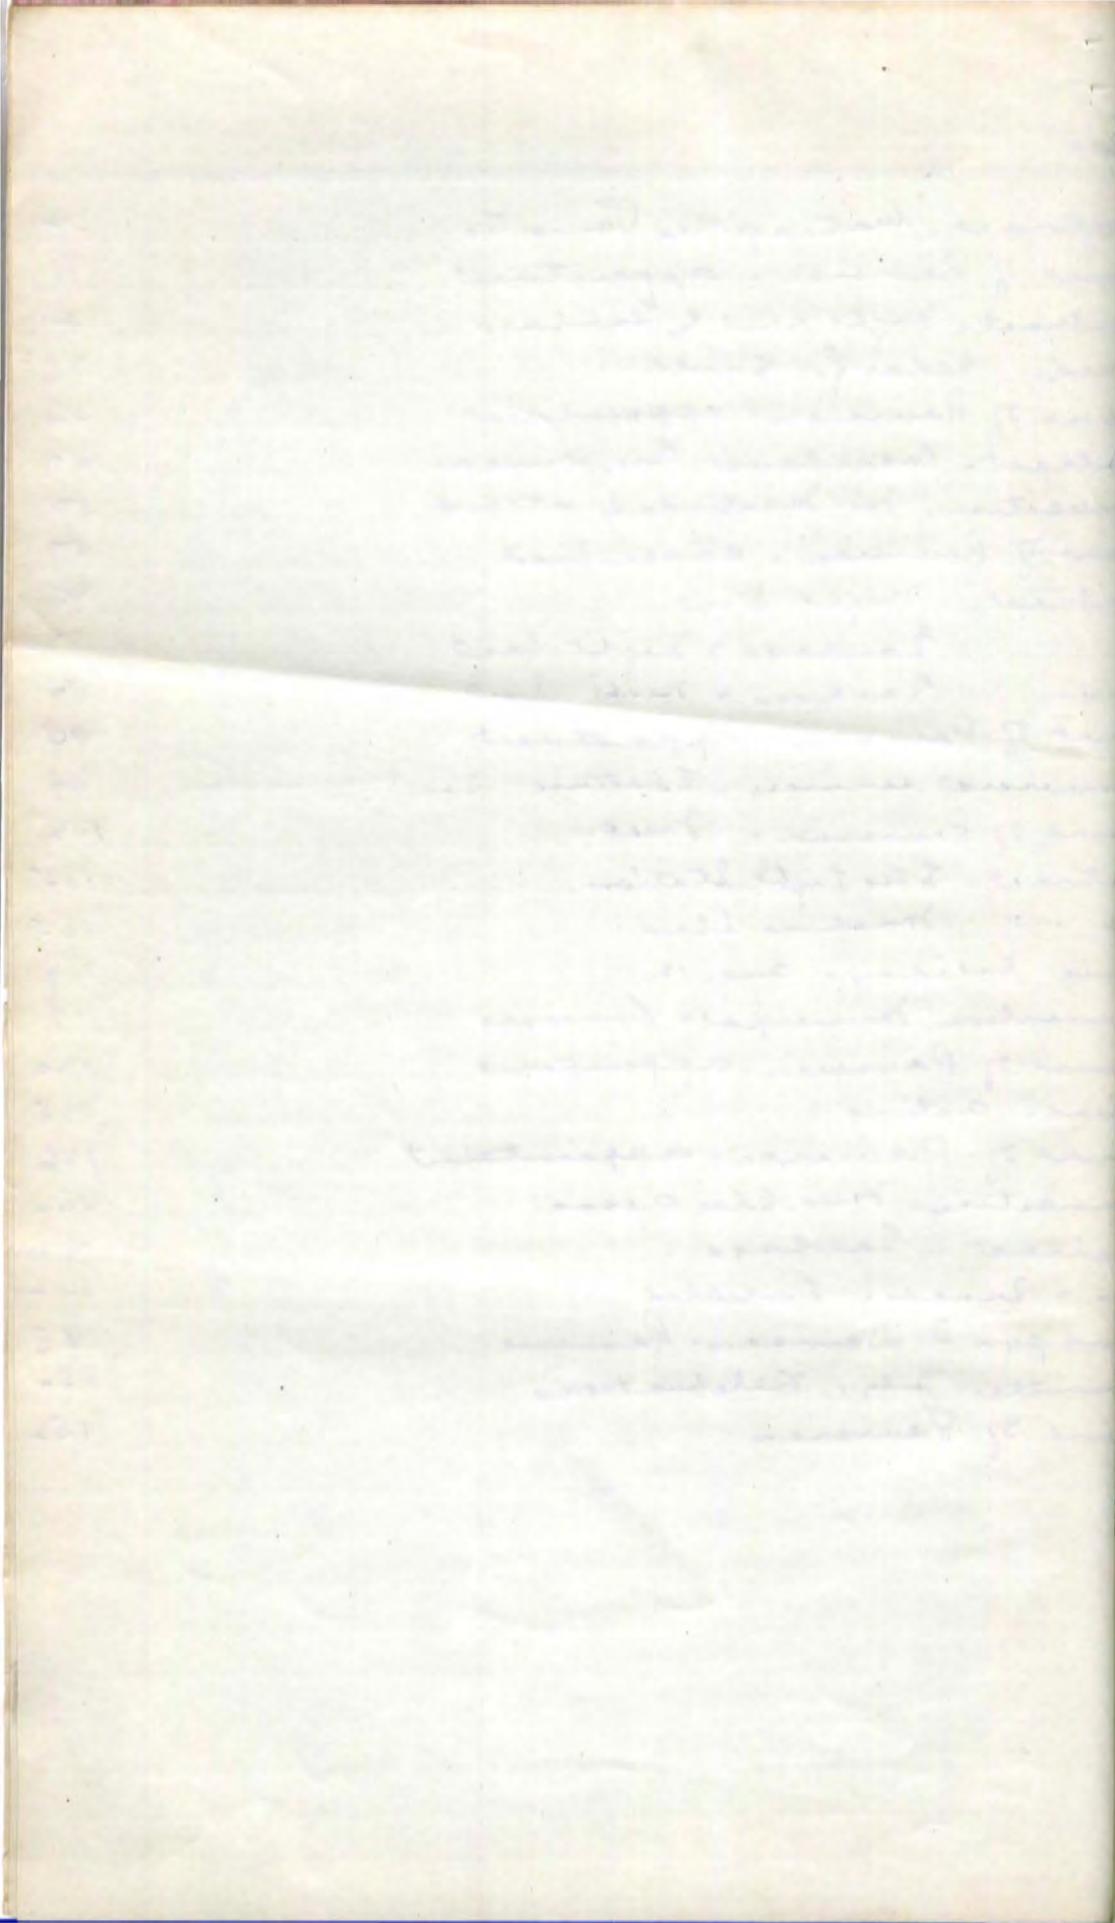

The next morning he
got up early and
went to the market
to buy some food.
He bought some
bread, cheese, and
milk. He also bought
some fruit and vegetables.
When he got home
he ate a good meal
and then went to work.
He worked hard all day
and did not stop
until it was time
to go to bed.

Augt 1st - went with John and
Mary to the W. A. movement
meeting at Cooper. John said he
had been to a good number
of meetings but had not
seen any good ones.
He said that the speakers
had not been educated or
had not been well prepared
and that they did not
know what they were doing
or what they wanted to do.
John said that he had
been to a meeting at which
the speaker had not
known what he was doing
or what he wanted to do.

Then the wind had a south west
and the water was very rough
and the boat was tossed about
so much that I could hardly
keep my balance. I was afraid
that we would be swamped.
I told the men to stop rowing
and just let the boat drift
but they said it was too dangerous
to do that so I told them to
row slowly and steadily.
After a few minutes the wind
blown us to the shore. We
had to go through a lot of
water to get to the beach.
When we got to the beach
we found a small hut made
of palm leaves and sticks.
There were two men inside
the hut. One of them was
very tall and thin and the
other was shorter and thicker.
They both spoke English
and they asked us if we
needed any help. We
told them that we did not
need any help and we
just wanted to rest for a
few minutes. They invited us
inside their hut and we
sat down and rested. They
offered us some food and
drink. We accepted their
offer and ate and drank.
After we finished eating and
drinking we said goodbye
to the men and thanked them
for their help. We then
continued our journey.

H. R. GRANT
TOWN TREASURER

10

The Town of Sudbury.
Ontario.

Sudbury, November 3, 1924.

Mayor and Town Council,
The Town of Sudbury.

Dear Sir,-

With reference to lands held on account of Tax Sales for the year 1916, I wish to report that Lot #126 Louis Street, which was sold at Tax Sales 1916, for One Hundred Dollars and Seventy Two Cents (\$100.72), was again re sold three years later and was redeemed by the original owner for three years arrears of Taxes only. It was then sold by him to Mr. J. H. *Keay* who *Flesby* has built a Housing Commission House on this lot. Therefore this amount of One Hundred Dollars and Seventy Two Cents, (\$100.72) has been lost to the Town and should be written off by Council Resolution.

Also Lots 158, 159 and 160 King Street, on Tax Sales in 1916 for Twelve Dollars and Fifty Six Cents, (\$12.56) were again sold three years later and this amount of Twelve Dollars and Fifty Six Cents (\$12.56) should also be struck off our books by resolution of the Council.

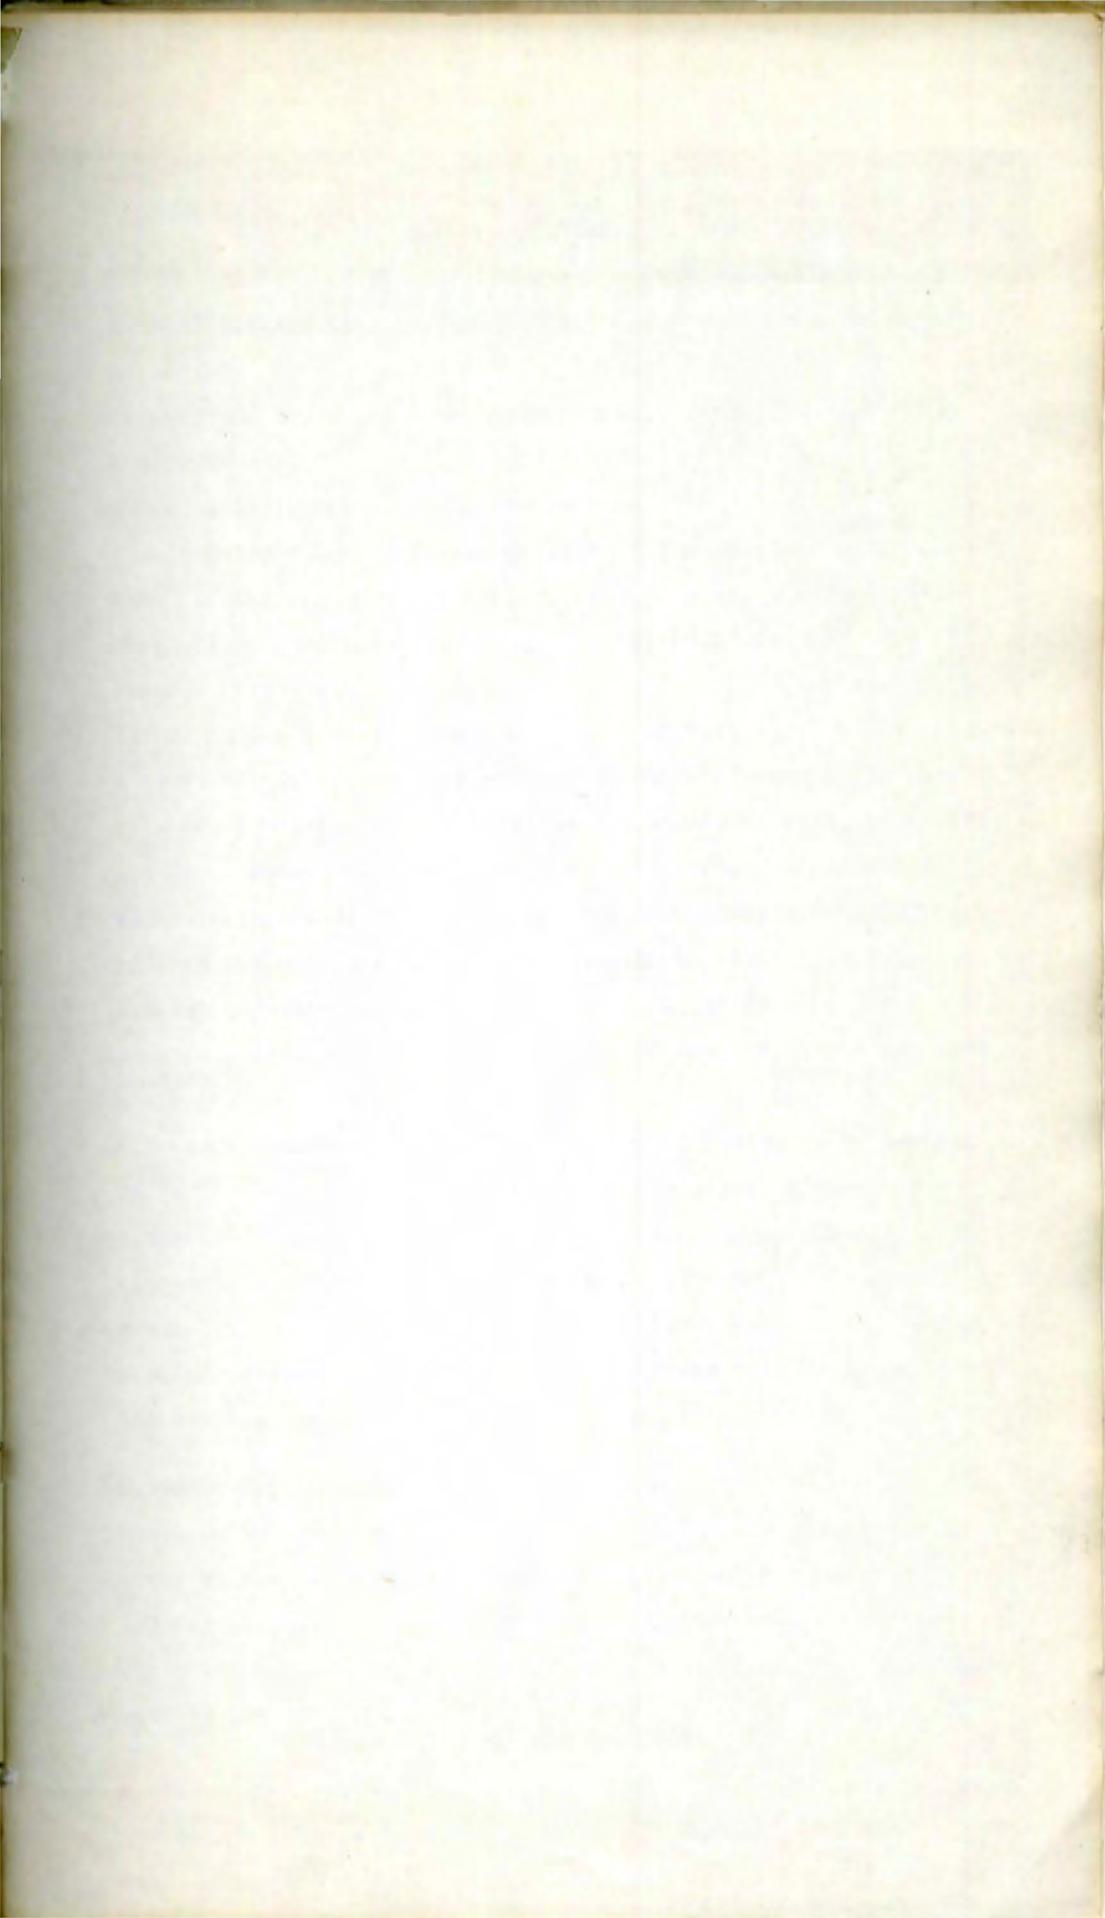

Yours very truly,

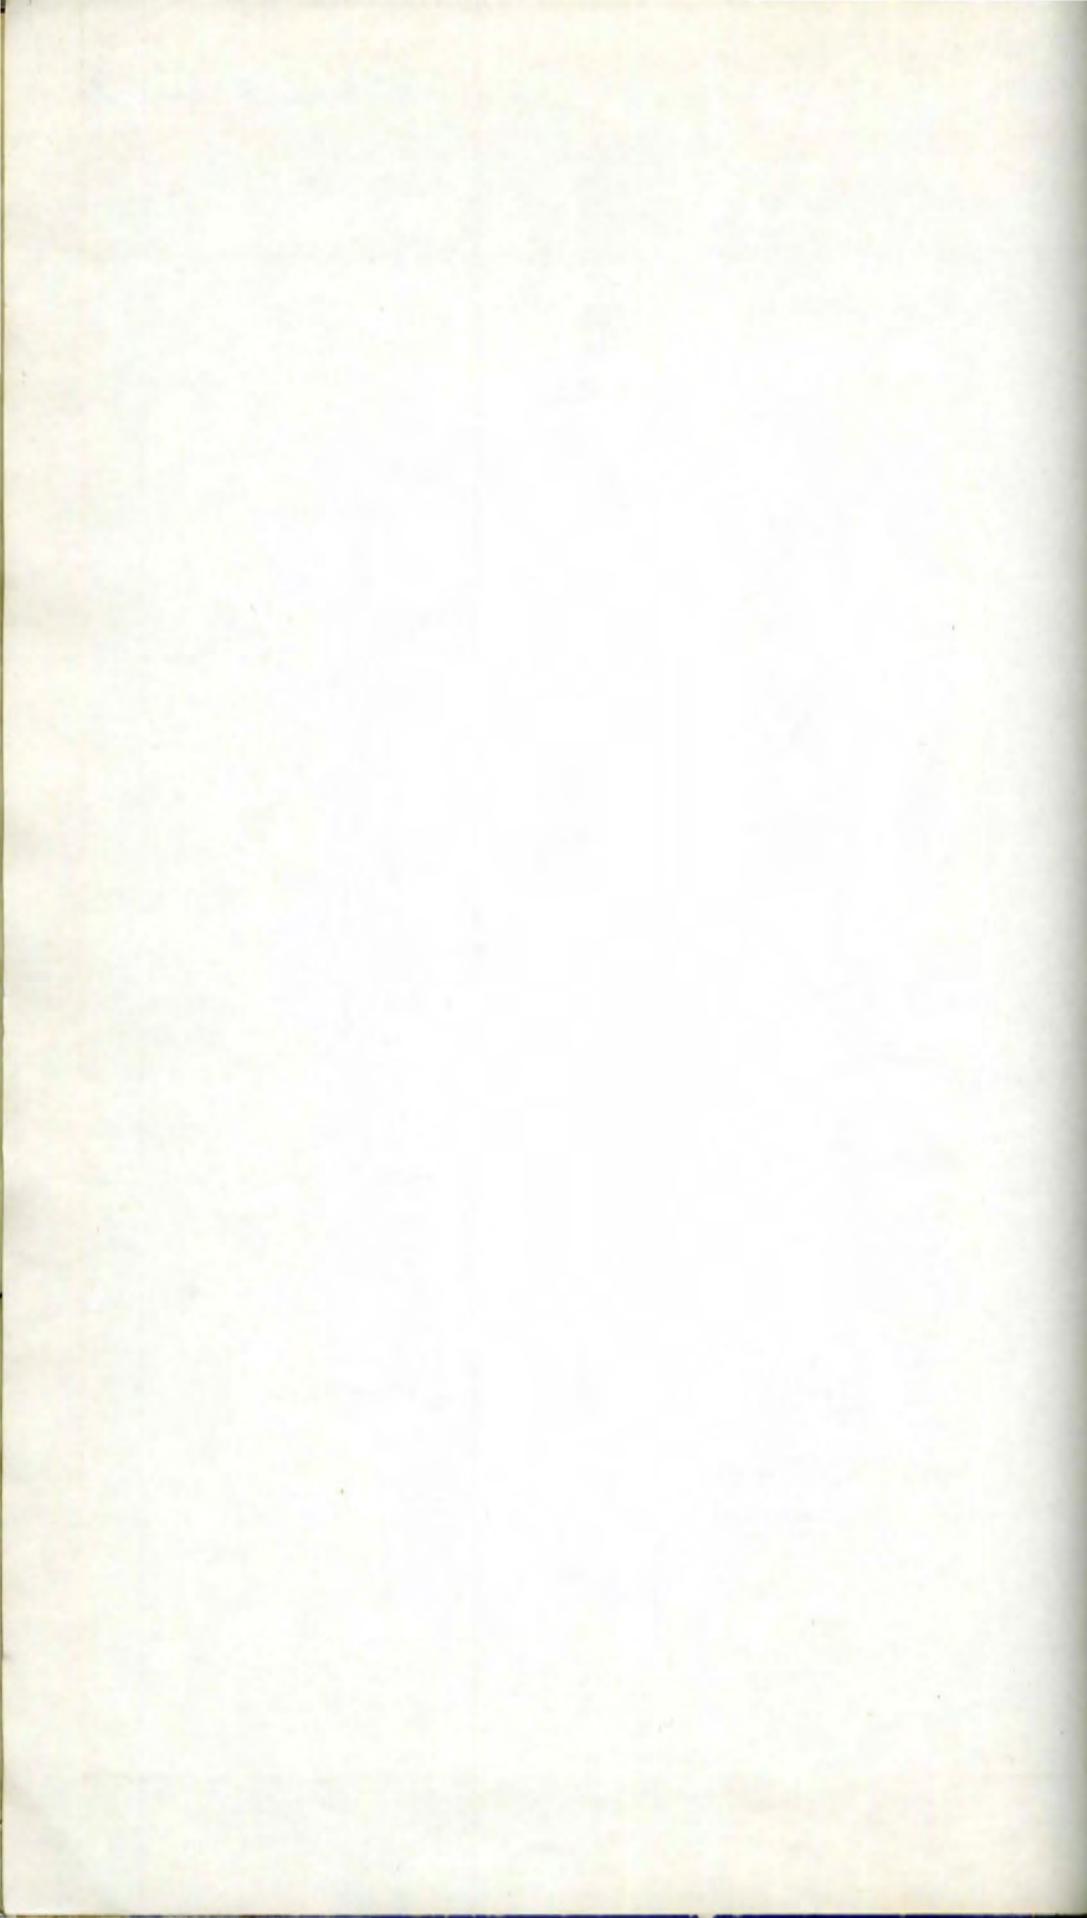

H R Grant

Town Treasurer.

to implement the new system. The first step is to identify the key areas of the organization that require change and to develop a plan for addressing them. This may involve changing processes, training staff, or investing in new technology. It is important to involve all stakeholders in the planning process to ensure buy-in and support for the changes.

blis, which is part of the *lithium* and *barium* group of elements. This is a very good example of the relationship between the two groups of elements, especially the transition metals, which have similar properties.

Barium has a higher melting point than lithium, but lithium has a higher boiling point. Barium has a higher density than lithium, but lithium has a higher specific heat capacity.

The density of barium is approximately 1.5 times that of lithium. The specific heat capacity of barium is approximately 0.5 times that of lithium.
