The seventh series, the list of textual records on microfilm, which was a later addition, is now Appendix 1. As well, the index for Series 2 originally found in the "Notes" area in the database record is now Appendix 2.

SERIES 2/Subseries 2: Institutions and Block Grants. – 1907-1979.

These records are largely drawn from the period, 1963-1972, but include records on several institutions that pre-date the formation of the United Church in 1925. In some instances the files are identified only by geographic area and church division (Newfoundland Conference, Avalon Presbytery), but in most instances the records are directly attached to institutions (Boylen Hospital, Montreal Pointe-aux-Trembles School, Brandon Indian Residential School). Unfortunately, not all of the records have been described in detail. Those dealing with the western provinces, especially Saskatchewan, Alberta and British Columbia have only been described to the box level.

SERIES 2/Subseries 3: Topics and Ministries. – 1925-1985.

Four general areas have been identified as special ministries or topics: work with minority groups, native peoples, rural work and student ministries. Under the heading "Immigration and Ministry to Minority Groups," there are records of ministries to Japanese, Korean, Portuguese, Czechs, Tibetans, and other non-Canadians. Materials include discussion papers, correspondence, newspaper clippings and publications by the church.

Materials concerned with rural ministries include several rural surveys from different parts of the country for 1930, 1958, and other periods; reports published by the church on rural problems (both secular problems and institutional ones), and publications and newspaper clippings on these problems.

The material called 'Indian Work' appears to very small, but this is only related to the special ministries amongst Native people. It includes manuals on how to approach the work, materials developed for the work, reports and briefs presented by Native communities and organizations to Parliament and similar materials.

The records of student ministries are closed to researchers.

These records have been described to the file level in this finding aid.

Listing of Records Found on Microfilm Reels

**PERMISSION MUST BE OBTAINED FROM
THE GENERAL COUNCIL ARCHIVIST
BEFORE VIEWING THESE FILES**

Compiled by: Peter James, July 1998
Revised by Lea M. de la Paz, October 2012

LISTING OF RECORDS FOUND ON MICROFILM REELS. - 1915-1972. -- 26 microfilm reels : 16 mm

The Board of Home Missions General Secretaries had responsibility for all activities carried out under the Board's broad mandate. This included work with Aboriginal Canadians, immigrants, social and health services, and related activities. In addition, the Board was responsible for supplying ministers and student interns for mission fields in rural areas as well as in urban missions like the All People's churches. It also was responsible for grants to charges and loans for properties and buildings in aid-receiving charges.

Please note that the file listing of the first 15 reels may be incomplete, since page breaks were not used throughout, and it was difficult to determine when subjects changed.

Listed dates, therefore, may not necessarily reflect the content of the files, as above.

Information enclosed in square brackets are estimates and information added by archivist; [fr] = frames

The collection contains two distinct sets of microfilm. The first contains correspondence, reports, minutes, and related material generated or collected by the General Secretaries of the Board in undertaking their tasks. The material includes documentation on Indian Residential Schools, hospitals, social service facilities, ministers and student interns (including applications for positions in the United Church), materials relating to committees of the Board (Immigration Committee, War Services Committee, etc.), and related records. It also contains financial data relating to aid-receiving charges.

The second set of microfilm contains material on property grants and loans to aid-receiving charges, arranged by Conference and geographic locale.

It seems that the majority of the documents on these reels are copies of what exists in textual format in other parts of the finding aid; this is difficult to verify because of the textual files have been reordered (no indication when or by whom) since the filming of the records. Some files, such as the WMS missionary files, for example, may not be

The first 15 reels exist only in negative microfilm format filmed between 1971 and 1972; the second 11 reels exist in positive and negative formats, except for reel 26, negative only.

Due to the presence of personal and personnel material scattered throughout the first fifteen reels, the entire content of these reels is restricted. Researchers wishing to view this material must fill in Form 26 and seek the permission of the General Council Archivist.
