## DAILY NORTHERN STAR : 10.90

WHY WE ARE HERE

The most potent factor in the advancement of a new

country next to a proper transportation service is a daily

newspaper. The usefulness of the former is to a great

extent handicapped by the fact that although trans-

portation facilities may be adequate to handle every-

thing that comes along, without advertising it may not

come. The people of the outside world must be told

Railways and Government at great expense and with disappointing results. Instead of having a population of half a million people New Ontario, the vast treasure house of the Province, has not a third of that number. It has been looked upon as a country of barren rock and swamp for long enough. The time had long ago arrived when a daily paper should have been established to push its interests and to lay before an interested world the vast possibilities of untold wealth merely awaiting the touch of man. Without any means of attracting atten-tion or airing grievances the district has had to submit disarponation of the second of the second of the touch of man. ### The establishment-of this paper marks an epoch in the history of the district. We congratulate ourselves and our readers that we have at last caught up to the world. Let us forget that for so many years we have been back numbers, twenty-four hours behind, and become accustomed to getting our news hot from the grid.

Feeling sure that they will heartily reciprocate, we beg to extend to the people of New Ontario our sincerest wishes for a Happy and Prosperous New Year.
